FOR IMMEDIATE RELEASE

## **Tadlock Roofing Pledges to Plant a Tree for Every Roof Sold in September**

*Florida's Premier Roofing Contractor Opens Shop in Tampa in a Big Way*

Tampa, FL - July 28, 2017 - On Friday, July 28 Dale Tadlock, Owner and President of Tadlock Roofing, announced the company pledges to purchase and plant a tree for every Tadlock roof sold in the month of September in partnership with City of Tampa's Parks & Recreation Department. Tadlock Roofing opened its doors for business with a Grand Opening and Ribbon-Cutting Friday where the pledge and partnership was announced, setting the tone for how Tadlock Roofing plans to give back.

Greg Baylor, Director of Parks & Recreation says, "plans for where Tadlock will plant the trees and what exact type are pending further discussions, however we are extremely grateful for the partnership and are excited to have a company with a focus on giving back expand into the Tampa market."

The Tadlock trees are scheduled to be rooted in October during a company-wide "day-of-service." This media announcement is the first in a series of important announcements concerning additional support and tactics surrounding what Tadlock Roofing is calling its "Sustainable September" campaign set to impact markets throughout Florida.

Roofing industry leader, Dale Tadlock, is invested in conservation and enhancement of the environment and has made expansion in Florida a top priority for the last six years. The family owned and operated business has provided environmentally-friendly residential and commercial roofing services to North and Central Florida residents for more than 35 years.

"My goal is to partner with like-minded organizations to ensure focus is being placed on sustainable work practices, education and dedication throughout the roofing industry and making the pledge to plant a tree for every roof sold in September is a step in the right direction," says Tadlock.

-MORE-

The “Sustainable September” campaign is one of many sustainable efforts on behalf of Tadlock Roofing, as the company also recycles 100 percent of all roof tear-offs with shingles turning into roadway, tile roofs into man-made reefs and metal roofs into molten metal. Tadlock Roofing installs attic insulation which ensures homeowner’s use less energy and save on utilities while conserving natural resources.
